

Your information

GP details on the Arthritis Map are uploaded from the Department of Human Services' Human Services Directory

To see if you are already on the map, go to the [Arthritis Map](#) and enter your postcode at the bottom left of the page

To get yourself on the map (or update your details) go to the [Human Services Directory](#)

Your Community

Go [here](#) and click on the 'Fact Sheet' icon at the top right of the page to see the prevalence and rates of preventable risk factors in your area

About the Arthritis Map

Click [here](#) for more information about the map

Your Feedback

We are currently completing an evaluation of the map and would greatly value a GP perspective. Please click [here](#) to tell us what you think!

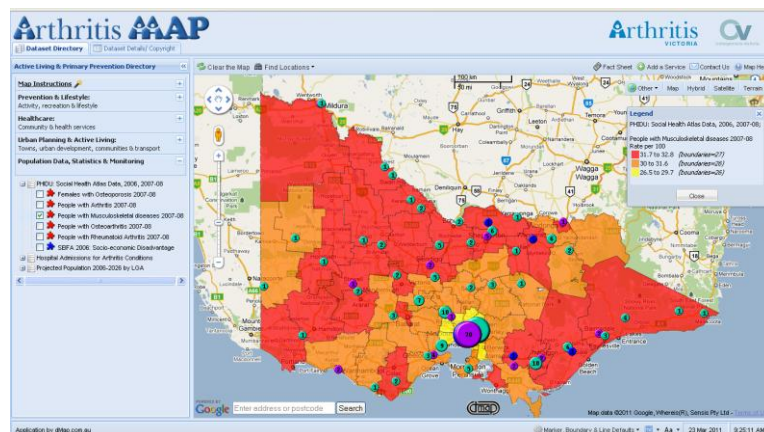

New Online Map for Arthritis Care

Dear Colleague,

GPV is championing leading edge health care, and would like to recommend an innovative new tool, The Arthritis Map of Victoria, developed by Arthritis Victoria. The Map can help you coordinate the care of your patients more efficiently by displaying the location of relevant programs and services in a user friendly format.

The Arthritis Map of Victoria is a valuable tool for use in consultations. Using the map you can:

- Quickly search and find local health professionals relevant to your patient's needs such as rheumatologists, physiotherapists and occupational therapists
- Discover a wide range of physical activity programs available in your local community such as warm water exercise, tai chi and sporting groups
- Locate the closest support group to help your patients connect with people with similar conditions
- Easily print out contact details and Google Map directions to providers or services on the map

The Arthritis Map of Victoria is a practical, interactive online tool that aims to help address the increasing impact of arthritis and other musculoskeletal (MSK) conditions in communities across Victoria.

The Arthritis Map can be accessed by clicking on the link at www.arthritisvic.org.au
